Version: Product Show Room Site 1.0

Tested on: Windows Server 2008 R2 Enterprise, Apache ,Mysql

Description

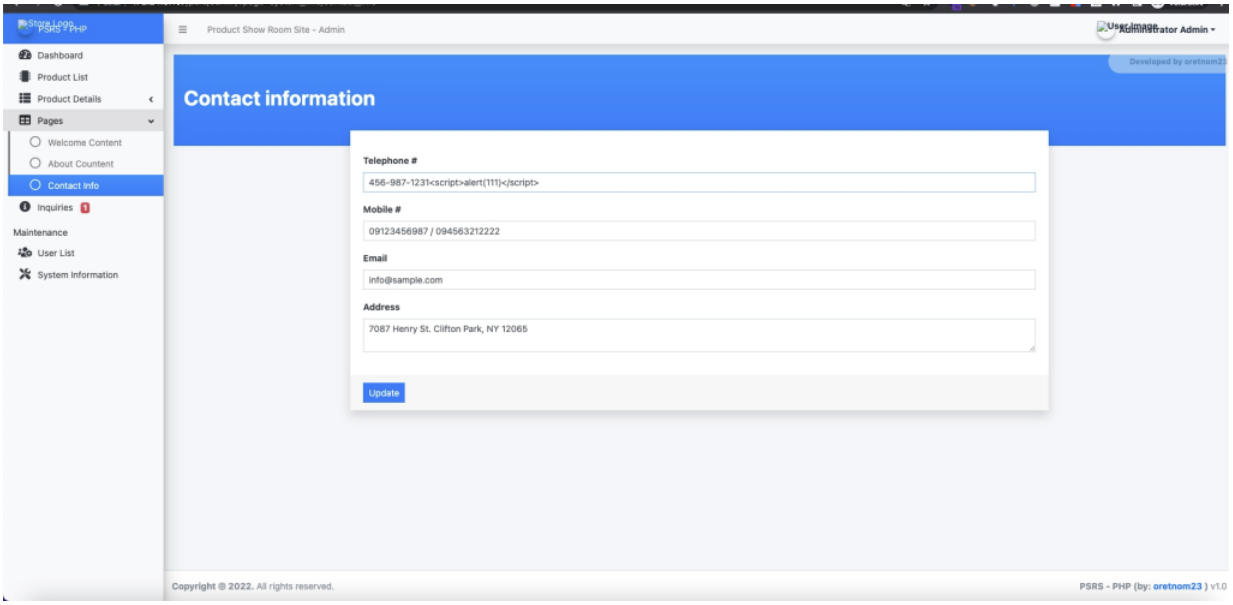
Persistent XSS (or Stored XSS) attack is one of the three major categories of XSS attacks, the others being Non-Persistent (or Reflected) XSS and DOM-based XSS. In general, XSS attacks are based on the victim's trust in a legitimate, but vulnerable, website or web application.Product Show Room Site does not filter the content correctly at the "Contact info-Telephone" module, resulting in the generation of stored XSS.

Payload used:

```
<script>alert(111)</script>
```

Proof of Concept

1. Login the CMS. Default Admin Access Username: admin Password: admin123
2. Open Page http://172.24.5.107/psrs/admin/?page=system_info/contact_info and click View button
3. Put XSS payload (`<script>alert(111)</script>`) in the Telephone box and click on Update to publish the page



4. Open http://172.24.5.107/psrs/?p=contact,Viewing the successfully published page,We can see the alert.
