#2399 closed defect (fixed)

Opened 3 months ago
Closed 3 months ago

A Division by zero occurred in the function config () of libmpcodecs/vf_scale.c

Reported by:	ylzs	Owned by:	beastd
Priority:	normal	Component:	mencoder
Version:	unspecified	Severity:	major
Keywords:		Cc:	
Blocked By:		Blocking:	
Reproduced by developer:	no	Analyzed by developer:	no

Description (last modified by ylzs) Δ

Version: SVN-r38374-13.0.1

Build command: ../configure --disable-ffmpeg_a && make (compiling with asan)

Summary of the bug: An division by zero is found in fucnction config () which affects mencoder. The attached file can reproduce this issue (ASAN-recompilation is needed).

How to reproduce:

1.Command: ./mencoder -ovc lavc -oac lavc -o /dev/null ./testcase

2.Result:

```

Resolution: → fixed
Status: new → closed

Probably fixed by r38390.
But I don't think this has anything to do with ASAN, and the issue is not reproducible on e.g. ARM architecture where there is no signal triggered by division by 0, so I cannot confirm if it's fixed.

Note: See TracTickets for help on using tickets.
