console      security

➔ 1.13.0

### Bug Description:

### Steps to Reproduce:

See also the [attached PoC video](#).

### Additional Information

- Theia Version: Theia 1.8.0

### Questions

- Theia is an important open source project, but it hasn't set a Github security policy. Should it have one?

I've assigned [CVE-2021-28161](#) with this description:

In Eclipse Theia versions up to and including 1.8.0, in the debug console there is no HTML escaping, so arbitrary Javascript code can be injected.

CWE-79: Improper Neutralization of Input During Web Page Generation ("Cross-site Scripting")

Let me know if updates are required.

@waynebeaton @marcdumais-work is there anything we need to do regarding the cve ?

**waynebeaton** commented on Apr 19, 2021

@waynebeaton @marcdumais-work is there anything we need to do regarding the cve ?

The CVE has been assigned and [promoted](#). Nothing more to do there (unless an update is required).
