Open redirection bypass in /www/admin/campaign-modify.php

Share: [f](#) [t](#) [in](#) [y](#) [v](#)

TIMELINE

joangn14 submitted a report to [Revive Adserver](#).

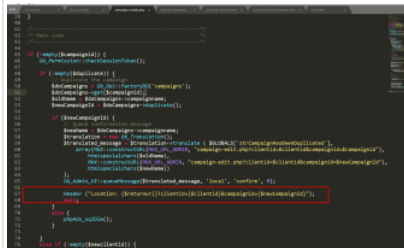

Feb 12th (3 years ago)

Description

- There is an open redirect on /www/admin/campaign-modify.php?return_url=

Image F713773: open_re.png 152.79 KiB

[Zoom in](#) [Zoom out](#) [Copy](#) [Download](#)

- By using //// at the start of the link, you can bypass the open redirect filter.
- example: /www/admin/campaign-modify.php?clientid=&campaignid=&returnurl=%2F%2F%2Fhackerone.com

Impact

This vulnerability can be used for phishing attacks

Thanks, there might be other occurrences of the issue so the fix might take a few more days.

mbeccati [Revive Adserver staff](#) closed the report and changed the status to Resolved.

Mar 9th (3 years ago)

Sorry for the delay. A security release has been tentatively scheduled for thursday this week, March 12th.

The attached patch should fix the reported issue. Thanks again for your report.
