Hi. A call to function Delete may cause infinite loop. I wish you could take a look.
https://play.golang.org/p/kZY-Z9ty_j

```
package main

import (
    "fmt"
    "github.com/buger/jsonparser"
)

func main() {
    data1 := []byte("^_i%`C^A^@(")
    data2 := ""

    // sink: this function leads to an infinite loop
    jsonparser.Delete(data1, data2)

    // code go hanged. So the last line won't be printed
    fmt.Println("Things go right!")
}
```
