

## Idor Lead to Archive Users in tooljet/tooljet

1

Valid

Reported on Jun 9th 2022

### Description

In this case a attacker can be able to archive any user of any targeted organization

### Proof of Concept

Attacker create new organization OrgA

Attacker add any user to his organization OrgA And archive the user

Capture this request in burp suite

victim is user of organization OrgB

Change id of our user to victim user of any organization then the user will be archived from OrgB4

### Impact

Archive/unarchive any/all users from any organization So if a attacker is member of a organization and organization archive his account using this vulnerability he can unarchive his account which make a huge privacy concern for a organization same as this attacker can remove access of any user from organization

Researcher

Hi @admin it look like tooljet team has fixed this issue over here  
<https://github.com/ToolJet/ToolJet/pull/3272> is there anything you can do

Thanks

Jamie Slome 5 months ago

Admin

I've dropped a comment <https://github.com/ToolJet/ToolJet/pull/3272#issuecomment-1174815105>  
on the report 👍
