

POC for MyCVE

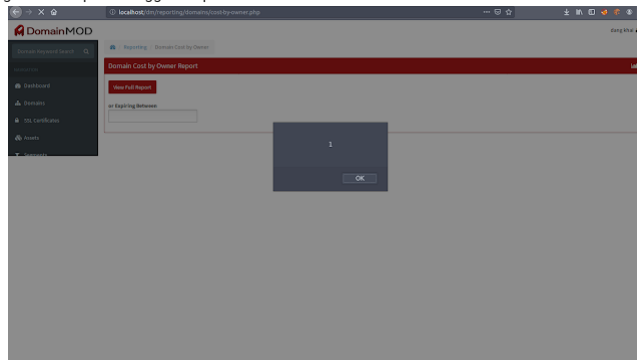

xss2

url: <http://localhost/dm/reporting/domains/cost-by-owner.php>

Step1: in parameter or Expiring Between -> inject code `</><script>alert(1)</script>`

Step2: enter generator report to trigger script

Unow22 lúc 13:47 16 tháng 10, 2021

Step 3 – Heat The Urine Sample You can heat up the formula with heating pads that work within an hour. Otherwise, many also use their body heat to reach the right temperature. Step 4 – Practice And Perform The Test Once heated to the right temperature, you are good to go. To make sure you can discreetly pour the sample into the container, practice doing so a few times.
