The upstream adal.js file (<https://github.com/AzureAD/azure-activedirectory-library-for-js/blob/dev/lib/adal.js>) was updated to fix a security issue that I reported. This PR is to apply their updated file to this project.

Hi @salvoravida is there any release planned for this fix. Please let us know there is any expected date. Thanks

vparams86 commented on Dec 16, 2020

@salvoravida - Please provide a new release, as CVE-2020-7787 is making us not compliant with the security policy.
