hard code password for root

A720R_Firmware

version: V4.1.5cu.532_B20210610

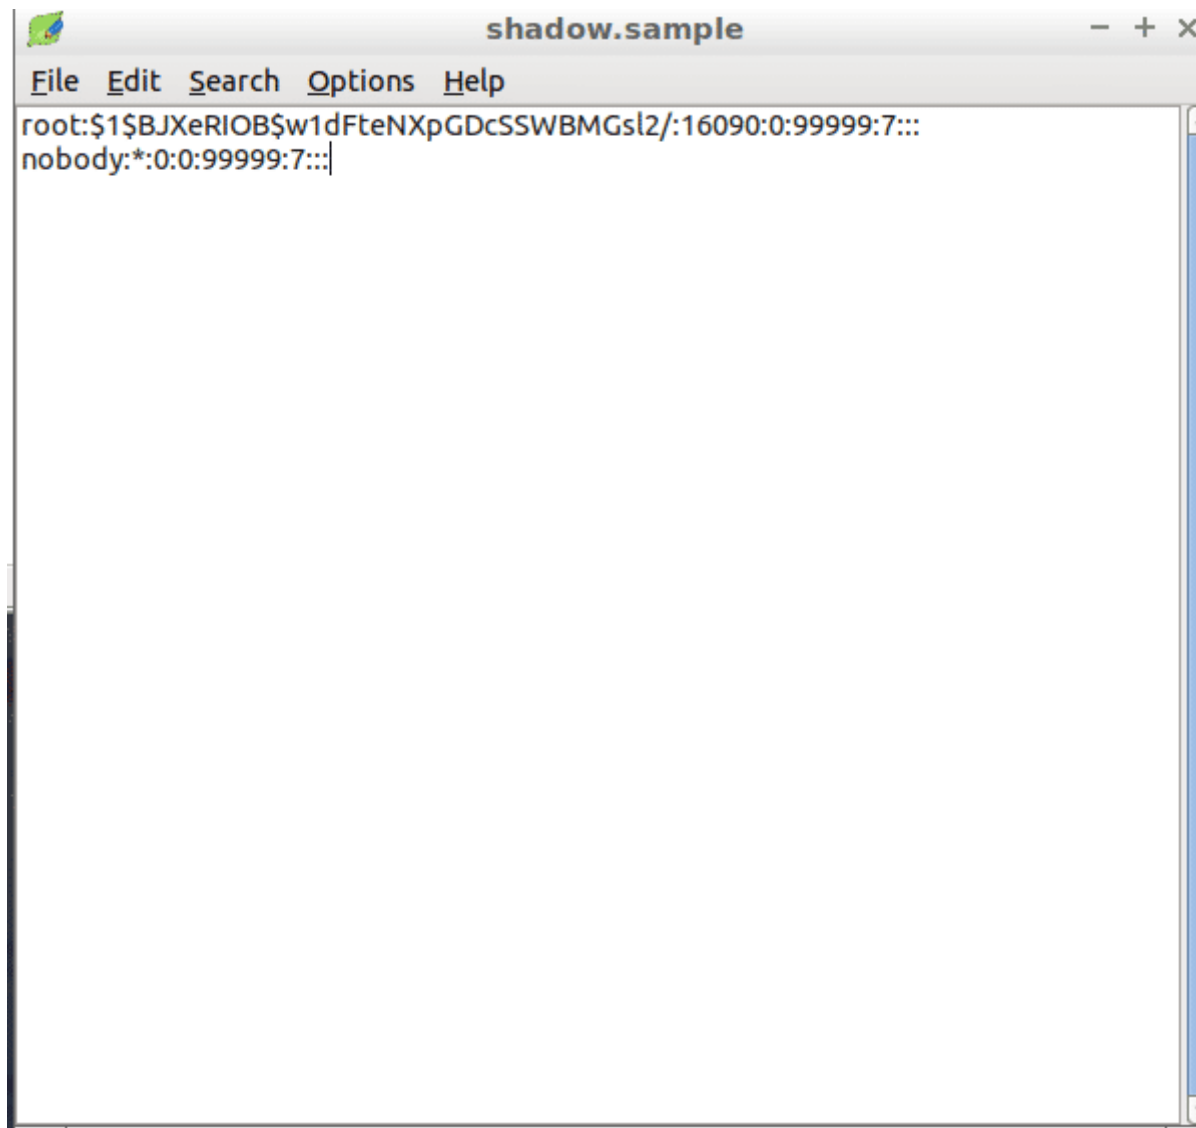

Description:

There is a hard code password for root in /etc/shadow.sample

Source:

you may download it from : http://www.totolink.cn/home/menu/detail?menu_listtpl=download&id=14&ids=36

Analyse:

after decrypt the passwd we got cs2012
