会员投稿功能，使用如下payload即可造成xss

```
<img+src%3d1+onpointerout%3dalert(1)>
```

直接在请求包的content中加上payload，等待审核通过即可。当鼠标滑过图片然后又划出的时候即触发xss

我在官方演示站投稿了一个文章，id=104，请确认。

Member submission function, using the following payload can cause xss

```
<img+src%3d1+onpointerout%3dalert(1)>
```

Add the payload directly to the content of the request package and wait for approval. Xss is triggered when the mouse rolls over the picture and then draws out

I submitted an article on the official demo station, id = 104, please confirm.
