

Contact Form 7 Database Addon < 1.2.6.5 - CSV Injection

Description

The plugin does not validate data when output it back in a CSV file, which could lead to CSV injection

Proof of Concept

Use a Contact Form 7 form and submit an Excel formula in the message field, such as "=5+5" without quotes. Export the entry as CSV using the plugin and import it into Excel

Affects Plugins

**contact-form-cfdb7**

Fixed in version 1.2.6.5 ✓
