hard code password for root

A3000RU_Firmware

version: V4.1.2cu.5185_B20201128

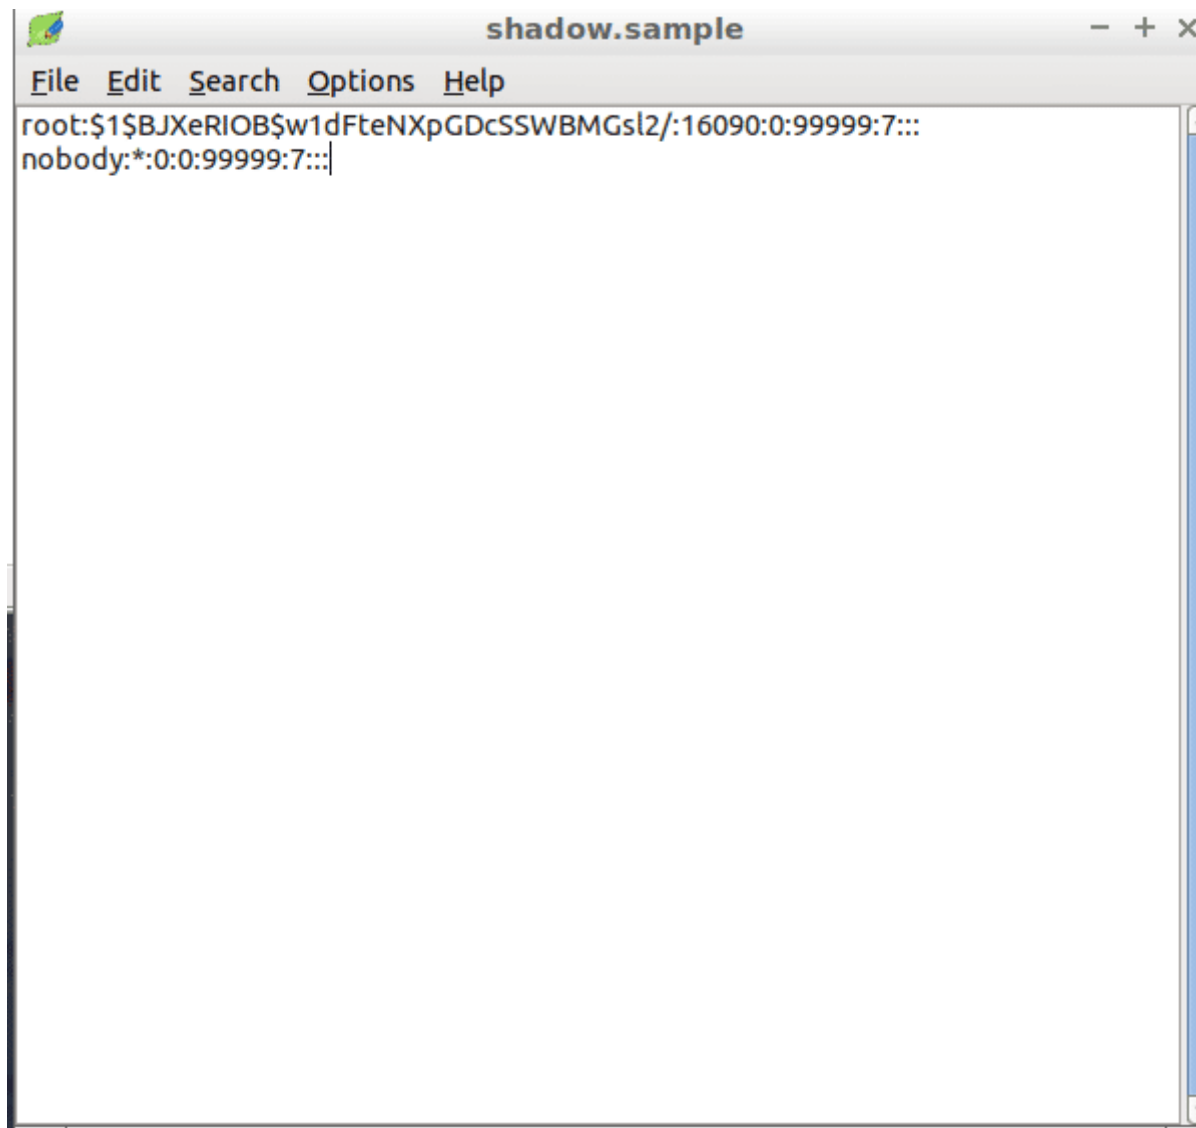

Description:

There is a hard code password for root in /etc/shadow.sample

Source:

you may download it from : http://www.totolink.cn/home/menu/detail?menu_listtpl=download&id=6&ids=36

Analyse:

after decrypt the passwd we got cs2012
