Owner

Product : Web-School ERP V 5.0

Description: A blind XSS vulnerability exists in Web-School ERP V 5.0 via (Add Events) in event name filed & description filed. An attacker can inject a JavaScript code that will be stored in the page. If any visitor sees the event, then the payload will be executed and sends the victim's information to the attacker website..

Recommendation

- 1-Ensure that any user input is properly sanitized
- 2-Use Content Security Policy (CSP) to reduce the severity of any XSS vulnerabilities that still occur

POC :

As show below it's the output from XSS Hunter Server

[XSSHunter] XSS Payload Fired On <http://demowebch.web-school.in/index.php/events/event/view/id/3> Inbox x
