Flexwatch-CVE

This document is for CVE-2022-25584 "RESERVED"

<https://cve.mitre.org/cgi-bin/cvename.cgi?name=CVE-2022-25584>

The screenshot shows the CVE Mitre website interface. At the top, there's a navigation bar with links like 'CVE List', 'CNAs', 'WGs', 'Board', 'About', and 'News & Blog'. Below this is a search bar and a navigation menu with options like 'Search CVE List', 'Downloads', 'Data Feeds', 'Update a CVE Record', and 'Request CVE IDs'. A prominent notice states: 'NOTICE: Transition to the all-new CVE website at WWW.CVE.ORG is underway and will last up to one year. (details)'. Another notice mentions 'Changes coming to CVE Record Format JSON and CVE List Content Downloads in 2022.'.

The main content area displays the details for CVE-2022-25584. It includes the CVE ID, a link to 'Learn more at National Vulnerability Database (NVD)', and a description stating: '** RESERVED ** This candidate has been reserved by an organization or individual that will use it when announcing a new security problem. When the candidate has been publicized, the details for this candidate will be provided.' There are also sections for 'References', 'Assigning CNA', 'Date Record Created' (20220221), and 'Phase (Legacy)' (Assigned (20220221)).

This vulnerability has been indexed by CNVD, but has not yet been made public
