com.sina.weibo.sdk.share.WbShareTransActivity, 该组件对外导出, 并接受任意参数, 起调私有组件, 影响众多app, 请紧急修复, 防止pr风险。。。sina-sso-4.2.7

请使用4.3.6

你好, 使用 4.3.6+ 版本, 依然存在该问题, 能通过以下代码依然能唤起 WbShareTransActivity:

```
Intent intent = new Intent();
intent.setComponent(new ComponentName("com.test.weibodemo", "com.sina.weibo.sdk.share.WbShareTransActivity"));
intent.putExtra("random_serializable_extra", new SerializableObject());
startActivity(intent);
```

区别于之前报错 weibo sdk was not initall!..., 新版本能唤起且解析出错 Parcelable encountered ClassNotFoundException reading a Serializable object

是我使用问题? 还是SDK存在缺陷? 麻烦处理下, 多谢。
