RigoBlock
@RigoBlock

RigoBlock has been hacked. All tokens in Dragos but ETH and USDT are at risk due to an exploited protocol vulnerability. The fix will require a major protocol upgrade, please don't use RigoBlock.

People @RigoBlock mentioned can reply

RigoBlock @RigoBlock · Feb 17

Replying to @RigoBlock

Purchases and sales of RigoBlock pools is safe, everyone looking to withdraw their own funds can do that without risk.

A pretty straightforward explanation by @danielvf

Daniel Von Fange @danielvf · Feb 17

Drago just got Rekt
