parse hangs on a date-like string with lots of embedded spaces #382

Closed jonpincus opened this issue on Mar 7, 2021 · 2 comments

Labels bug

jonpincus commented on Mar 7, 2021

Trying to parse this string never returns. It looks like catastrophic backtracking in the regex matching, probably due to all the embedded spaces

```
const str = 'BGR3
186
18
37
01
          days
          hours
          minutes
          seconds';

chrono.parse(str);
```

How to improve parsing performance? #380

Closed

wanasit commented on Mar 13, 2021

Owner

This is fixed in 98815b5 . (2.2.4)

Please note that I fix the problem by limiting the whitespace size. e.g. Your input won't be extracted as a date.
