Author

Hello, While fuzzing htmldoc , I found a heap-buffer-overflow in write_header

Reporter:

dramthy from Topsec Alpha Lab

test platform:

htmldoc Version : current

OS :Ubuntu 20.04.1 LTS aarch64

kernel: 5.4.0-53-generic

compiler: cc (Ubuntu 9.3.0-17ubuntu1~20.04) 9.3.0

reproduced:

(htmldoc with asan build option)

./htmldoc-with-asan ./poc.html

[poc.zip](#)

SUMMARY: AddressSanitizer: heap-buffer-overflow (/lib/aarch64-linux-gnu/libasan.so.5+0x8efcc)
```

Maybe fix:

in htmlGetText(), the s2 is not init, if tlen ==0, malloc (1+0) and s2[tlen]='\0'.

```
if (tdata != NULL)
{
    // Add the text to this string...
```

```

tlen = strlen((char *)tdata);

if (s)
    s2 = (uchar *)realloc(s, 1 + slen + tlen);
else{
    s2 = (uchar *)malloc(1 + tlen); // error, s2 is not init
    s2[tlen] = '\0';
}

if (!s2)
    break;

s = s2;

memcpy((char *)s + slen, (char *)tdata, tlen);

```
