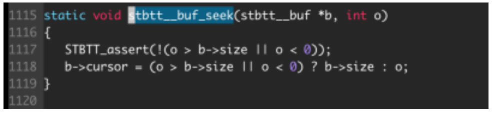
assertion failure in `stbtt__buf_seek` can be triggered by user supplied font file.



```
static void stbtt__buf_seek(stbtt__buf *b, int o)
{
   STBTT_assert(!(o > b->size || o < 0));
   b->cursor = (o > b->size || o < 0) ? b->size : o;
}

```

carnil commented on Jan 10, 2020

CVE-2020-6619 was assigned for this issue.

nothings added the 1 stb_truetype label on Feb 1, 2020

nothings commented on Jul 4, 2021 Owner

The documentation for the library was modified in 2020 to make clear it is intentionally insecure, and fixing issues like this is out of scope.

nothings closed this as completed on Jul 4, 2021
