Open Redirect

Affecting github.com/gophish/gophish package,
versions <0.12.0

INTRODUCED: **17 FEB 2022**   CVE-2022-25295 (?)
CWE-601 (?)   (FIRST ADDED BY SNYK)

Share ▾

How to fix?

Upgrade `github.com/gophish/gophish` to version 0.12.0 or
higher.

Overview

Affected versions of this package are vulnerable to Open Redirect. The
Open Redirect vulnerability exists in the `next` query parameter. The
application uses `url.Parse(r.FormValue("next"))` to extract path and
eventually redirect user to a relative URL, but if `next` parameter starts with
multiple backslashes like `\\\\\\example.com` , browser will redirect user to
`http://example.com` .
