```cpp
1   #include "cpp-httplib/httplib.h"
2   using namespace httplib;
3   int main() {
4       Server svr;
5       svr.Get("/1", [](const Request& req, Response& res) {
6           res.set_redirect("1\r\nSet-Cookie: a=1");
7       });
8       svr.Get("/2", [](const Request& req, Response& res) {
9           res.set_header("a", "1\r\nSet-Cookie: a=1");
10      });
11      svr.listen("localhost", 3000);
12  }
```

@shouc, thanks for the report. I have fixed it with the latest v0.5.9. Could you report the fix to the place to which you have submitted this issue as a vulnerability? Thanks a lot!

shouc commented on Apr 14, 2020   Author

You don't need to. It assumes this is fixed in a version > v0.5.8. Thanks.

yhirose commented on Apr 14, 2020

OK. Thanks for the info.
