https://github.com/NodeBB/nodebb-theme-persona/blob/98edd2c19ae934414dc7519bb01c9ef0bb10ee56/templates/registerComplete.tpl#L43-L51

Does not pass in CSRF token.

> **NodeBB/src/routes/authentication.js**

Does not check for CSRF token.

As far as exploitation goes, effect is limited (it just stops people from being able to register), and requires local access to machine, so this isn't classified as a vulnerability, just a best-practice nice-to-have.
