Summary

Hi there, I tested the binary mp42hls, the version of Bento4 is the latest (the newest master branch) and the
operation system is Ubuntu 18.04.6 LTS (docker) and this binary crash with the following.

Details

```
root@2e47aa8b3277:/test_mp42hls# ./mp42hls --audio-track-id 2 ./mp42hls\-poc\-1
ERROR: audio track ID 2 not found
