Dear Ross Finlayson,

Thanks for your reply!

I find another similar UAF issue in the "mpg" file streaming:

I attach the poc in attachment.

Best regards,

Jinsheng Ba

Jinsheng,

Thanks for the report.  I have just installed a new version (2021.08.06) that fixes this bug.

If you have a LIVE555-based RTSP server that can serve ".mkv", ".webm", or ".ogg" files, then you should upgrade to this new version ASAP.
