Directory Traversal Vulnerability #8

⊘ Closed   **0clickjacking0** opened this issue on May 4 · 1 comment

0clickjacking0 commented on May 4

Vulnerability file address

`internal/controllers/admin/setting/adminSystemController.go` line 83 , `c.Query("path")` the incoming path value is not filtered, resulting in directory traversal.

```
path = gstrings.JoinStr(configs.RootPath, c.Query("path"))

        files, err = ioutil.ReadDir(path)
        if err != nil {
                con.Error(c, "获取目录失败")
                return
        }
```

POC

http://ip:port/admin/setting/system/getdir?path=
