Update the WordPress tarteaucitron.js – Cookies legislation & GDPR plugin to the latest available version (at least 1.6).

Details   ⓘ Show technical details

Julio (SecuPress) discovered and reported this Cross Site Request Forgery (CSRF) vulnerability in WordPress tarteaucitron.js – Cookies legislation & GDPR Plugin. This could allow a malicious actor to force higher privileged users to execute unwanted actions under their current authentication. For example a password change which will then allow the malicious actor to login into the admin account. This vulnerability has been fixed in version 1.6.
